

CEDAR SPRINGS PUBLIC SCHOOLS

Options for Internet Access

Everyoneon.org - <https://www.everyoneon.org/>

EveryoneOn is a national nonprofit that creates social and economic opportunities by connecting everyone to the internet. Since 2012, EveryoneOn has facilitated access to affordable technology solutions--in-home internet service, desktops and laptops--and free digital literacy training through our [offer locator tool](#), cross-sector partnerships, and local programming efforts. We work closely with schools, public housing communities, and other diverse organizations to facilitate internet adoption.
