

RHO Update and Calendar

Looking Ahead

Be sure to save this information and the calendars in order to plan successfully for the remainder of Semester 1

Plan #1: If you want to have your current classes done before leaving for Thanksgiving, follow this plan on the calendar

Plan #2: If you want to come back from break and then take your exams, follow this plan on the calendar

Considerations

- The final 2 classes of the semester will begin December 1 for all full-time RHO students with 6-week course pacing.
- CSPA teachers will be unavailable during both Thanksgiving and Christmas breaks. Please respect this time and do not email, call, or text your teachers as they enjoy much needed time away from work with their families.
- GA teachers and GA tech support will still be available.
- Students may, but are not required to work on or complete assignments during scheduled breaks.
- Graduation Alliance works with districts all over the United States. Graduation Alliance does not recognize the same breaks as CSPA and as such, the progress in the classes will continue as normal. This will NOT count against the students and they can simply pick up where they left off before break.
- The same expectations apply to all classes; you must complete all assignments and earn a 60% or better score in order to take the exam.
- As you look into January, you will see that Semester 1 ends Jan. 22. This means that all courses, coursework, and final exams must be completed by 3:00 on that day. No extensions will be granted. Any courses not completed by the end of semester 1 will receive the grade of an "F" and will not earn credit.

To schedule an exam and receive the school code, contact your CSPA teacher, not the GA teacher
